

SPEAKER BIOGRAPHY

Randall Champagne
Engineer
GM Advanced Global Battery Systems
General Motors Company

Randy Champagne has over 24 years of automotive engineering experience, including four years in the area of Advanced Propulsion and Development at General Motors. He has specialized in Propulsion Batteries, Hybrid Integration, and Fuel Cell Vehicles.

Mr. Champagne is also a board member with Michigan Academy for Green Mobility Alliance (MAGMA). He has developed numerous courses showcasing GM's Propulsion Batteries and Advanced Propulsion Technology and has worked closely with industry leaders to develop new training courses that will ensure the latest technology is incorporated. This has resulted in an offering of numerous courses involving HV Safety, Fuel Cell Vehicles, Hybrid Technology and Lithium Batteries.
